THINK PINK!!

Real, honest to goodness, down home hickory smoked BBQ, done right, should not be gray or white inside. Real "Q" has a "purplish, reddish, pinkish ring" round the top of the meats, and is usually pink throughout. Meat from the ribs, butts and chicken will be pink. **NOT TO WORRY!!** This tells you that all of the food is cooked the real BBQ way. Hickory wood causes a reaction in the meats (Nobody except Mr. Science knows why, but all we can do is savor the flavor). This unique reaction causes smoked meats to turn pink. Just relax and enjoy the slow smoked of REAL HONEST TO GOODNESS DOWN HOME BBQ!!
